Factory Machine Controls Upgrade

The remote maintenance system provides Bekum customers with fast and secure troubleshooting for all components and therefore offers a key benefit for the productivity of our machines.

What's new?

- Bekum Control 8.0
- Large 24" HD touch screen display
- Fewer parameters on screen for simplified operation
- Industrial VPN router for remote connectivity
- Alarm and set point change history screen for improved troubleshooting capabilities
- Cabinet cooling via chilled water heat exchanger
- Industry 4.0 ready

Benefits:

- Compliance to latest ANSI standards
- Factory warranty
- Factory documentation
- Guaranteed continued support for the next 10 years
- Cost saving potential due to remote diagnosis vs. service trip
- Reduced downtime with new wiring
- Lockout/tagout disconnects for hydraulic pump and pneumatic supply

Tailor-made controls upgrade to individual customer needs!
